

**SPECIFIES, DEVELOPS,
GOVERNS IT-SOLUTIONS**

OS²

**OPEN SOURCE x
PUBLIC COLLABORATION**

ABOUT US

OS2 is a Danish public network - created in 2012 - that specifies, develops and governs digital solutions by public bodies and for public bodies.

OS2 is organised into members (public authorities) and partners (suppliers) who collaborate on creating the best possible digital solutions.

All members are equal and get a vote on the highest decision-making body, the yearly general assembly. and In between there, the board is the highest decision-making body in OS2.

Daily operations is managed by a full time Business Manager and a Community Manager. Both are founded by a yearly membership fee, currently EUR 3.350 per member (per 1/1/2019).

OUR FOCUS

Openness:

We find transparency and democracy to be key in our open community.

Collaboration:

We believe that we are better and stronger if we unite.

Sharing:

We are an open source community and we find that knowledge and good digital solutions should not be proprietary.

Digital development:

We want to be frontrunners where relevant.

IP ownership and open source licenses:

We make sure that our way of working prevents vendor lock-in.
